exhibition system

designer display kit

With an extensive range of preconfigured displays which can be supplied as portable or semi-permanent kits, unique design features will enhance any environment from exhibitions to retail.

The display range merges design and practicality to create a new format for portable or static displays. Using the Modular System, kits offer unbeatable flexibility and stability for both public and trade applications.

With 10 basic structures and the ability to join together, kits can expand and be added to, giving endless configurations. Whether you're looking to stand out from the pop-up crowd or launch a new product, systems can be simply adapted through an extensive range of accessories.

10 basic structures,
endless configuration

Portable kits are easy to use and transport. With its own set of bespoke cases an M1 kit will pack down to 1100 x 750 x 400mm.
